FARMING

AUSTRALIAN
OWNED
& DESIGNED

Designed and manufactured in Australia for tough Aussie conditions, it comes standard with;

- One farmlight controller
- One super bright LED floodlight
- One 20W solar panel
- One remote switch
- One mounting kit

The new Solar Farmlight comes packed with smart features such as:

- Inbuilt Maximum Power Point Tracking (MPPT)
- 22 Ah Gell Cell Battery
- Options to add up to four super bright floodlights
- Pre-wired, so no electrician required
- Auto switch off
- Time out warning
- Low battery indicator

Expected run times from a fully charged battery*

- 1 x 10 w super bright lamp = up to 18 hours
- 2 x 10 w super bright lamps = up to 9 hours
- 3 x 10 w super bright lamps = up to 6 hours
- 4 x 10 w super bright lamps = up to 4.5 hours

* Run times are approximate only and depend on the condition of the battery.

The Farmlight will recharge in 2 days on average, or in one day with the 40W upgrade kit.

Upgrades – additional Farmlight super bright LED flood lamps are available for \$39.95 each.
(Up to four lamps can be fitted)

- The 40W solar panel upgrade kit (adds another 20W panel to base system) is available for \$69.95.
